Education

BINUS UNIVERSITY

Master of Computer Science

GPA: N/A

Relevant coursework: N/A

Jakarta, Indonesia

Sep 2025 - Present

BINUS UNIVERSITY

Bachelor of Computer Science

GPA: 3.73

Relevant coursework: Web Programming, Software Engineering

Tangerang, Indonesia

Sep 2022 - Aug 2025

Work Experience

IT DEVELOPER

PT Tera Multi Wahana

Jakarta, Indonesia

Feb 2025 - Present

- Implemented and delivered functional menus for a Distribution Management System (DMS) using Flutter, .NET Framework, and SQL with SQL Server Management Studio, enhancing user navigation and system efficiency.
- Improved the reliability and functionality of a Sales Force Automation (SFA) system by resolving bugs using Flutter, .NET Framework, and SQL with SQLite Browser, resulting in a smoother experience for field sales teams.

University Projects

SOLAR SYSTEM

[LINK](#)

Sep 2024 - Dec 2024

- Collaborated with a four-person team to develop a 3D solar system simulation using the Three.js library, successfully delivering a fully functional and interactive model.
- Integrated and programmed spaceship controls and movement, enabling seamless navigation within the simulation.

WATCHGOODS

[LINK](#)

Feb 2023 - Jun 2023

- Designed the complete user interface and features for a responsive e-commerce website for a watch shop using Figma.
- Developed the website's front-end using HTML, CSS, and JavaScript to create a functional and responsive user experience.

Activities

CENIM 2024

[LINK](#)

Oct 2024 - Nov 2024

- Presented research on how mobile cloud gaming affects player accessibility and quality of experience, using a systematic literature review.
- Published research paper, "Evaluation of the Impact of Mobile Cloud Gaming Technology on Accessibility and Quality of Player Experience," in IEEE.

Skills Summary

Languages: Dart, C#, SQL, JavaScript
Frameworks: Flutter, .NET Framework
Tools: Android Studio, Visual Studio, SQL Server Management Studio, DB Browser
Soft Skills: Digital and Technology Fluency, Collaboration, Adaptability, Applied Management

Certifications

JAVASCRIPT INTERMEDIATE

Aug 2024 - Aug 2026

- Skilvul
- [LINK](#)
- Learned complex array techniques, recursion, regular expressions, and asynchronous programming with promises and API calls.
 - Acquired expertise in manipulating the DOM to create dynamic interfaces and using Web Storage for persistent client-side data.
